## Baker Bros. Nursery

ESTABLISHED 1884

FORT WORTH, -:- -:- -:- TEXAS

FIVE-INCH CHINESE ELMS  
IN NURSERY ROW

---

---

Most of the evergreens offered in this list should be moved with a ball of earth, Balled and Burlapped as we call it, or briefly B & B. It is impracticable to ship these by express or by freight in less than car lots, but we do deliver by truck 250 miles from Fort Worth free of charge on orders amounting to \$200.00 or more. Trees and shrubs are handled bare rooted any time from Nov. 1st to April 15th. Balled evergreens may be planted at any time of the year.

**LANDSCAPE WORK.** We are prepared to do landscape work of all kinds, by furnishing plans and specifications, furnishing all material, and doing the work.

### *Visitors are Welcome*

We are always glad to have visitors. If you come by auto, go out East Third Street and follow the street car line right to our office. If by street car, take any car and ask for transfer to the Riverside line, getting off at Third and Main; walk one block east where you get the street car which runs right through our nursery.

**TERMS.**—Cash with order. We deliver our trees in good condition to the transportation companies, but do not give any guaranty as to their safe delivery or as to their growing. All prices f. o. b. Fort Worth.

**RELIABILITY.**—We are members of the American Association of Nurserymen, and no one can obtain or retain membership in it who is not honorable and fair in his dealings.

24-30 in., each.....	1.75
30-36 in., each.....	2.00
3-3½ ft., each.....	2.50

#### **CYPRESS, Italian Worthiana:**

Very superior strain of symmetrical upright growth, and much hardier than other cypresses. The parent tree on our grounds is twenty years old and has never been injured by cold when all other specimens were either killed outright or severely damaged by the severe cold spells we have had every four or five years. Young plants propagated from this stock were uninjured in the field while other stock was killed. Every tree is handsome and uniform in its growth.

18-24 in., each.....	\$ 1.50
2-3 ft., each.....	2.00
3-4 ft., each.....	3.00
4-5 ft., each.....	5.00
